

EastmarkHK Snowball

Privacy Report

iPhone / iPad / Mac

eastmarkhk.com
eastmarkhk@eastmarkhk.com
Version 1.0.0
Updated 24 August 2026

1. Introduction

This Privacy Report applies to EastmarkHK Snowball (bundle ID com.eastmarkhk.eastmarkhkSnowball), version 1.0.0, for iPhone, iPad and Mac. EastmarkHK Snowball is a compound-interest calculator: it projects an investment month by month, optionally converts the result into a second currency, and can export a PDF report.

This document describes the data the app stores, the purposes it is used for, every network connection the app can make and the system permissions it requires - in the format expected for App Store / Mac App Store submission (Privacy Nutrition Labels and PrivacyInfo.xcprivacy) and for publication at <https://eastmarkhk.com/privacy/>.

EastmarkHK operates no cloud account and no server-side copy of your calculations. EastmarkHK Snowball has no user account, no sign-in and no advertising or analytics SDK. Figures you type stay on the device unless you yourself save or share a PDF.

2. Data Stored by EastmarkHK Snowball

Data	Storage	Shared With	Purpose
Investment inputs (amount, rate, years, contributions)	In memory only, until you leave the screen	Nobody	Run the calculation you asked for
Chosen investment and reference currencies	SharedPreferences (on-device)	Nobody	Restore the last currencies you picked
Interface language code and name	SharedPreferences (on-device)	Nobody	Keep the language you selected
Cached UI translations (non-English)	Application Support / ui_110n/*.json	Nobody	Avoid translating the same language twice
PDF report you export	A file you choose (Mac Save dialog) or the share sheet (iPhone / iPad)	Only if you send that file yourself	Print or keep a copy of the projection

Your principal, rate and contribution amounts are never written to an EastmarkHK database and are never included in translation or exchange-rate requests.

3. Network Connections

Endpoint	Purpose	Triggered By	Data Sent
api.frankfurter.app	ECB foreign-exchange rate for the two currencies you selected	You pick two different currencies	ISO currency codes only (for example HKD, EUR). No amounts, no identity
open.er-api.com	Fallback FX rate if Frankfurter does not list that pair	Frankfurter fails or does not support the pair	ISO currency codes only
Apple Translation (on-device, Mac / iPhone / iPad)	Translate the app interface	You choose a non-English language and Apple Translation is available	English UI catalogue, processed on-device. Not sent to EastmarkHK
api.mistral.ai	Translate the app interface when Apple Translation is not available	You choose a non-English language on a device without Apple Translation	English UI strings from the app catalogue. Not your investment figures
fonts.gstatic.com (Google Fonts / Noto Sans)	Unicode font for the PDF preview	The PDF report is generated	A font file download. No personal data

Calculations themselves work offline. Network use is limited to a live FX quote (when two currencies differ), optional interface translation, and loading the PDF font.

4. System Permissions Required

Permission	iPhone / iPad	Mac	Reason
------------	---------------	-----	--------

Permission	iPhone / iPad	Mac	Reason
Network client	When FX, translation or PDF font is needed	App Sandbox network client	Exchange rates, optional Mistral translation, PDF font
User-selected files	Share / Files (you choose)	Save panel (read-write)	Save the PDF report where you want
Printing	System print / share	App Sandbox print	Print the PDF report
Camera	Not used	Not used	Not requested
Photo Library	Not used	Not used	Not requested
Microphone	Not used	Not used	Not requested
Location (GPS)	Not used	Not used	Not requested
Contacts	Not used	Not used	Not requested
Tracking / ATT	Not used	Not used	No advertising identifier

5. PrivacyInfo.xcprivacy - Required Reason APIs

API Category	Reason Code	Usage
NSPrivacyAccessedAPICategoryUserDefaults	CA92.1	Read / write language and currency preferences via SharedPreferences
NSPrivacyAccessedAPICategoryFileTimestamp	C617.1	Manage on-device translation cache files in Application Support

NSPrivacyTracking is set to false. No advertising identifier APIs are used. NSPrivacyCollectedDataTypes is empty: EastmarkHK does not collect personal data from this app.

6. App Store Privacy Nutrition Labels

Category	Collected?	Linked to Identity?	Used for Tracking?
Contact Info	No	-	-
Health & Fitness	No	-	-
Financial Info	No (figures stay on device)	-	-
Location	No	-	-
Sensitive Info	No	-	-
Contacts	No	-	-
User Content	No	-	-
Browsing History	No	-	-
Search History	No	-	-
Identifiers	No	-	-
Purchases	No (processed by Apple if you buy the app)	-	-
Usage Data	No	-	-
Diagnostics	No	-	-
Surroundings	No	-	-
Body	No	-	-
Other Data	No	-	-

In App Store Connect, declare Data Not Collected. Optional third-party calls (FX APIs, Mistral for UI translation, Google Fonts) do not receive your name, Apple ID, or investment amounts.

7. Data Retention and Deletion

Data	Retention	How to Delete
Language and currency preferences	Until you change them or uninstall	Change in the app, or delete the app

Data	Retention	How to Delete
Cached UI translations	Until uninstall	Delete the app (clears Application Support)
PDF you saved	Wherever you saved it	Delete that file yourself

Uninstalling the app permanently deletes on-device preferences and translation packs. EastmarkHK has no copy to erase on its servers because none was sent.

8. Third-Party Services

Service	Provider	Purpose	Data Sent	Privacy Policy
Frankfurter	Frankfurter (ECB rates)	Live FX quote	Currency codes	frankfurter.dev
Open Exchange Rates API	open.er-api.com	Fallback FX quote	Currency codes	exchangerate-api.com
Apple Translation	Apple (on-device)	Interface translation	On-device only	apple.com/privacy
Mistral AI API	Mistral AI	Interface translation fallback	English UI catalogue (not your numbers)	mistral.ai/terms
Google Fonts (Noto Sans)	Google	PDF Unicode font	Font download only	policies.google.com/privacy
App Store / Mac App Store	Apple	Purchase and distribution	Per Apple's commerce terms	apple.com/privacy

No analytics SDKs, advertising networks, crash reporters or third-party tracking libraries are included in EastmarkHK Snowball.

9. Children's Privacy

EastmarkHK Snowball is a personal finance calculator. It is not directed at children under 13 (or under 16 in the European Union). We do not knowingly collect any data from children.

10. No Account, No Cloud Login

EastmarkHK Snowball does not require an EastmarkHK account. There is no sign-in, no licence server phone-home, and no remote backup of your calculations. App Store purchases are processed by Apple.

11. Changes

Updates to this policy are published at <https://eastmarkhk.com/privacy/privacy-policy-Snowball.html> and https://eastmarkhk.com/privacy/EastmarkHK_Snowball_Privacy_Report.pdf with a new "last updated" date. Material changes to what leaves the device are noted in the release notes of the version that introduces them.

12. Contact
